FIX-IT FUEL™

WITH!

FUEL SYSTEM TREATMENT FOR POOR/ NON-RUNNING 2 & 4 CYCLE ENGINES

Lawnmowers, Weedeaters, Chainsaws,
Motorcycles, ATV's, Generators
And much more!

The Problem

Street Gas with Ethanol

With increasing frequency, ethanol in today's street gasoline damages fuel systems in portable gas-powered tools, making them run poorly and difficult, if not impossible, to start. Damage commonly caused by ethanol includes:

- Form gum or varnish that clogs carburetors and fuel lines. (Fig. 1, 2 & 3)
- Degrade rubber fuel lines and plastic components (Fig. 4 & 5)
- Attract moisture and separate from the gasoline, becoming more corrosive to internal engine components (Fig. 6)

Some of these problems can occur in just a matter of days.

The Fix

VP® "FIX-IT FUEL™" with "Mechanic In A Bottle™"

Fix-It Fuel is a one-time fuel system treatment that cleans and rejuvenates poor/non-running small engines damaged by Ethanol.

Designed as a single use treatment, Fix-It Fuel is a pre-mixed ETHANOL-FREE 89 Octane gas + oil blend. Although mixed with oil at 50:1, it works in any 2 & 4 cycle small engine application. Fortified with Mechanic In A Bottle, it cleans and repairs

the fuel system without having to remove the carburetor or injectors, avoiding costly repairs and downtime. Fix-It Fuel is extremely easy to use. Just pour it in and follow the directions. For most applications, just one tank will do the trick.

Available in quarts, 5-gallon pails and 55-gallon drums, Fix-It Fuel is specially formulated to address the issues caused by ethanol in street gas:

- Clean Carburetors & Injectors without Removal
- Safely Clean Varnish & Carbon Deposits
- Remove Water that Causes Corrosion
- Fixes Ethanol Issues in Pump Gas
- Rejuvenate Rubber & Plastic
- Revitalize Stale Fuel
- Reduce Costly Repairs & Downtime

While running in your engine, Fix-It Fuel cleanses your equipment's fuel system so it starts more easily and operates in top condition. **Fix-It Fuel works in all 2 & 4 cycle equipment including lawnmowers, weed eaters, chainsaws, motorcycles, ATVs, generators and more!**

The Solution

Fix-It Fuel is best used as a one-time treatment for poor/non-running engines before the introduction of ETHANOL-FREE VP Small Engine Fuel which is designed for ongoing use to prevent ethanol-related problems from happening in the first place. VP-SEF is the most complete and cost effective solution to ethanol-related problems that currently plague small engines.
